## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. Claims 1-10, 33-42, 56 and 59 stand rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement, for reasons as of record to the enabling of the increasing of the mass and energy content of the gas.

### *Claim Rejections - 35 USC § 101*

2. Claims 1-10, 33-42, 56 and 59 stand rejected under 35 U.S.C. 101, for reasons as of record.

### *Response to Arguments*

3. Applicant's arguments filed 20 October 2004 have been fully considered but they are not persuasive.

In response to Applicant's argument that "nowhere in the specification does applicant claim that mass is increased", as the specific density is defined in page 10 of the specification as the density of a gas in atomic mass unit, the specific

density is indeed related to mass of the gas and the recited increasing in specific density of the gas is indeed reciting the increase in mass of the gas.

As to the argument on the increasing of the energy content of the gas, the rejections are maintained since the gas being a matter cannot increase its energy content.

### *Conclusion*

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
